THE PROBLEM

40%

of U.S. fourth graders performed **below NAEP Basic** in reading in 2024.

Only 31% reached NAEP Proficient or above.

Source: NAEP / The Nation's Report Card, 2024

27%
2012
14%
2023
14%
of 13-year-olds reported reading for fun almost every day in 2023.
Achievement isn't the only challenge.
Engagement is falling too.
Source: NAEP Long-Term Trend, 2023

Attention and Reading Are Connected Early.

387 children
followed from kindergarten through fifth grade.

Attention problems **predicted later reading achievement** even after accounting for prior reading performance, IQ, and other behavioral factors.

Why it matters: engagement and attention are part of the literacy problem — especially early.

Source: Rabiner et al., *Journal of the American Academy of Child & Adolescent Psychiatry*, 2000.

THE WORLD AROUND STUDENTS

Be part of it.

TOO OFTEN, LEARNING

If everything around students has evolved, why should every student still experience learning the same way?

THE STANDARD CAN STAY RIGOROUS WHILE THE EXPERIENCE EVOLVES.

PRIS
Where Worlds Meet.
Personalized literacy experiences built around every student.
SAME STANDARD. DIFFERENT EXPERIENCE.

The World Is Simplifying.

From restaurants to homes, modern design is becoming **cleaner, quieter, and more minimal.**

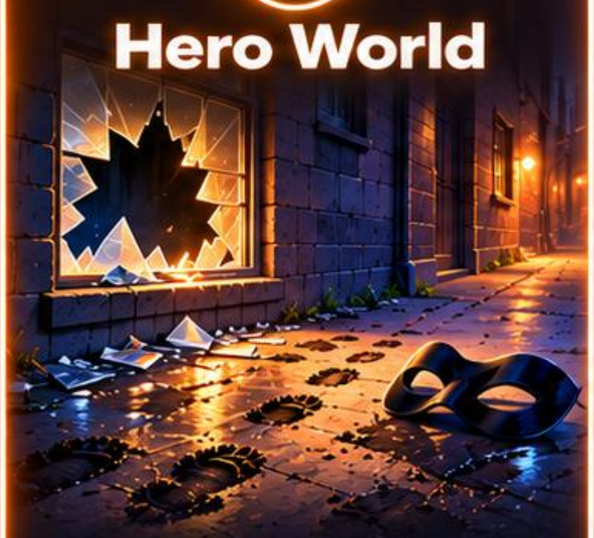

Children's learning should modernize too —
without losing wonder, imagination, and substance.

It's time to put substance back where it matters most: **children's learning.**

ONE SKILL: INFERENCE

Hero World

Broken window. Muddy footprints. Abandoned mask.

What can you infer happened?

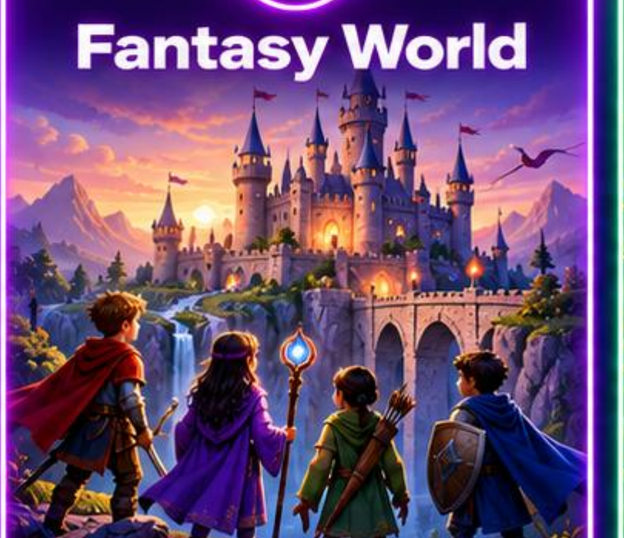

Sports World

The defense double-teams the point guard and leaves the corner shooter open.

What adjustment is likely next?

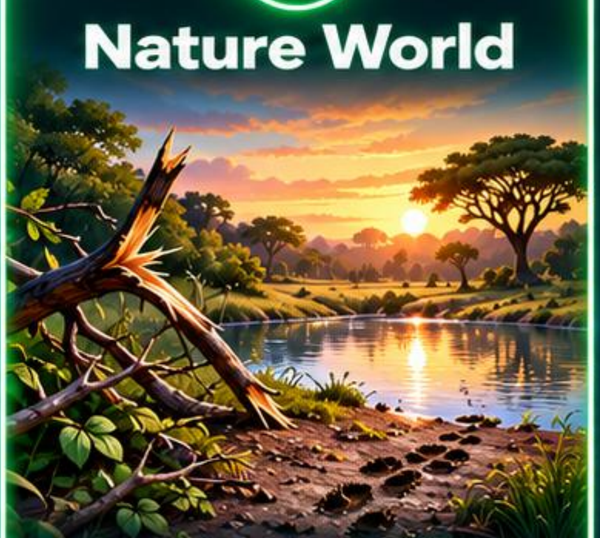

Fantasy World

The castle gate is untouched, but tracks lead beneath the wall.

How did the intruder likely enter?

Nature World

Broken branches and fresh tracks appear near a watering hole.

What likely passed through?

One objective. Many experiences.

Reading becomes the experience.

1 Choose Your World

Explore story worlds that match your interests and level.

2 Enter a Reading Mission

Learn your mission, meet the characters, and dive into an engaging story or real-world topic.

3 Read Investigate Interpret

Read authentic texts, explore clues, analyze evidence, and make meaning just like real readers.

4 Answer & Explain

Respond to standards-aligned questions and explain your thinking in your own words.

5 Pris Diagnoses

Our AI analyzes your responses to identify strengths, misconceptions, and growth opportunities in real time.

6 Targeted Practice

Get personalized practice and mini-missions that build your skills right where you need them most.

7 Progress

See your growth, unlock new worlds, and become a stronger, more confident reader.

The reading isn't between the gameplay. The reading is the gameplay.

Pris learns how the student learns.

Literacy Skill Profile

You understood what happened, but missed why it happened.

Current Focus: **Inference**

Reading Stamina

Engage first. Build focus over time.

Level 1
- 100 words
- Visual support
- 1 question

Level 5
- 200 words
- Fewer interruptions
- 3 questions

Level 10
- 400 words
- Complete reading before questions

Sustained Reading

Research support: A 27-study K-12 meta-analysis found personalized/adaptive learning improved reading literacy overall.
Source: Alrawashdeh et al., Educational Research Review, 2024.

PRIS
Where Worlds Meet.
We are not lowering the standard to meet the student.
We are changing the path that helps the student reach it.
SAME STANDARD. DIFFERENT EXPERIENCE.
